OBJECTIVE

Motivated and detail-oriented Computer Science graduate with a solid foundation in software engineering and modern web technologies. Skilled in developing scalable, user-focused applications using the MERN stack. Eager to apply my frontend expertise in a dynamic environment, contribute to meaningful projects, and grow through hands-on learning and collaboration.

EDUCATION

Bachelor of Technology in Computer Science and Engineering
College Of Engineering Kidangoor

2020-2024

WORK EXPERIENCE

Full Stack Developer Intern - Zen Meraki Private Limited, Thrissur

2024 December - Present

- Designed intuitive, responsive layouts using React.js, CSS3, and Bootstrap for cross-device compatibility.
- Developed and maintained MERN stack applications and customized Shopify themes.
- Integrated REST APIs and handled backend logic in Node.js and Express.
- Ensured compliance with accessibility standards and privacy policies in frontend components.
- Collaborated with designers to align visuals with branding and improve UX

INTERNSHIP

Luminar TechnoLab - ME(A)RN Stack Intern

July 2024 - January 2025

- Developed and improved web platforms leveraging the MERN stack.
- Designed and implemented adaptive user interfaces with React.js, styled using CSS/Bootstrap.
- Assisted in building server-side functionalities with Express.js and MongoDB for data management.
- Integrated RESTful APIs to enable dynamic content rendering and seamless user experiences.

CERTIFICATES

- **ME(A)RN Stack Development** – Course Completion Certificate with A+ Grade, Luminar Technolab
- **Full Stack Development (MEAN/MERN)** – Certified by National Council for Technology and Training (NCTT), A+ Grade

SKILLS

Programming Languages: JavaScript, C

Front-End: HTML5, CSS3, Bootstrap, React.js

Back-End: Node.js, Express.js

Database: MongoDB, SQL(academic exposure)

Version Control: Git, GitHub

Tools & Platforms: Netlify, Visual Studio Code

API Integration: RESTful APIs, Axios

Productivity Tools: Microsoft Excel, Google Sheets

Soft Skills: Problem-Solving, Team Collaboration, Attention to Detail, Communication, Time Management

PROJECTS

QuantumCalc

- Developed a responsive neon-inspired design and intuitive functionality using HTML,CSS,Bootstrap and JavaScript.

Online Banking

- Created an interactive Online Banking System using HTML, CSS, and JavaScript, enabling users to securely deposit and withdraw funds with password validation.
- Implemented dynamic balance updates and real-time error handling to enhance user experience and functionality.

MAGIC FLIP

- Developed a responsive Magic Flip game using React, featuring interactive gameplay with state management

MEDIA PLAYER

- Developed a responsive Media Player with an intuitive user interface using React.js
- Implemented CRUD operations to manage user data and media content effectively.
- Integrated Axios for streamlined API communication.

EXTRA-CURRICULAR ACTIVITIES

- Member of IEDC CEK
- Volunteer Head of TechExpo Conducted as part of CAPE FEST

LANGUAGES KNOWN

- Malayalam - Mother tongue
- English - Proficient
- Hindi - Intermediate
